

### **COST Action E31 (2002 – 2006)**

### "Management of Recovered Wood"

Joint Working Group Workshop of COST Action E31 and IEA Bioenergy Task 38

"Greenhouse Gas Aspects of Biomass Cascading – Reuse, Recycling and Energy Generation"

Gerfried Jungmeier, Joanneum Research, Austria Chair person of COST Action E31 Dublin, 25 April 2005

# Motto of COST Action E31 "Management of Recovered Wood"

"Improvement of the management

of

recovered wood

towards a higher

common

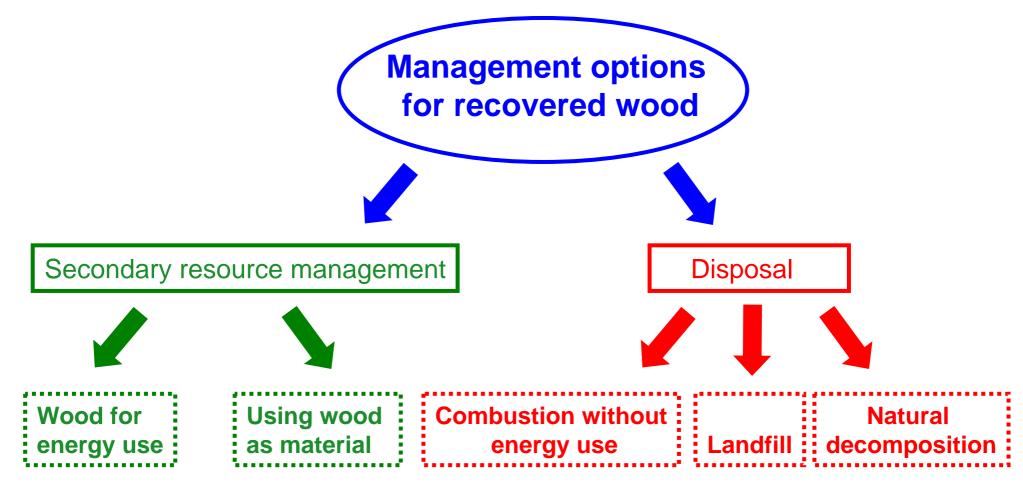

technical, economic and environmental standard"

# Systems of Recovered Wood Management

## What is "Recovered Wood" in COST Action E31?

Recovered wood includes all kinds of wooden material that is available at the end of its use as a wooden product ("post-consumer" or "post-use" wood).

## What is "Recovered Wood" in COST Action E31?

- Recovered wood includes all kinds of wooden material that is available at the end of its use as a wooden product ("post-consumer" or "post-use" wood).
- Recovered wood mainly comprises
  - + packaging materials,
  - + demolition wood,
  - + timber from building sites and
  - + fractions of used wood from residential, industrial & commercial activities.

### Origins of "Recovered Wood"

#### **Main focus of COST Action E31**

#### **Wood processing side**

- saw mill
- wood manufacturing industry
- particle board industry

- construction and demolition activities
- residential and commercial sectors
- packaging collection

## **Countries Participating in COST Action E31**

20 Countries signed Memorandum of Understanding (MoU)

### **The Working Triangle**

Multi-disciplinary seminars, workshops and conferences, trainig courses

Workgroup 1

"European Management

of Recovered Wood"

Workgroup 2
"Treatment Options
for Recovered Wood"

## Outlook COST E31: Future Events and Activities

- COST Action E31 training course Hamburg, Germany, 7 11 June 2005
- ➤ Joint Workshop with InnovaWood European network of organisations active in the fields of Education, or RTD and/or Innovation for the wood sector. One of the top priorities identified is the opening up of the Network to the Eastern countries. (Piotr Paschalis, Warsaw University) 27 28 June 2005, Warsawa, Poland
- ➤ 2<sup>nd</sup> Conference "Management of Recovered Wood Strategies Towards a Higher Technical, Economic and Environmental Standard in Europe" in 2005, Bordeaux, 29 30 September 2005 (plus 1 Oct scientific visit)

### **COST Action E31 Training Course**

- > 7 11 June 2005 Hamburg, BFH (Prof. Frühwald)
- Topics for 4 days:
  - 1) Introduction
  - 2) Energy generation from recovered wood
  - 3) Recycling of recovered wood
  - 4) Scientific visit
- interested people to register (Deglise Xavier Xavier.Deglise@lermab.uhp-nancy.fr)

## Joint Workshop COST Action E31 and InnovaWood

- ≥ 2 days between 27 28 June 2005, Warsawa, Poland
- top priority: opening up of the Network to the Eastern European countries
- > collection of ideas and possible contributions are welcome
- riganised by Piotr Paschalis and Gerfried Jungmeier

(gerfried.jungmeier@joanneum.at)

# 2<sup>nd</sup> Conference of COST Action E31

- "Management of Recovered Wood Strategies Towards a Higher Technical, Economic and Environmental Standard in Europe" in 2005, Bordeaux, 29 30 September 2005 (plus 1 Oct scientific visit)
- Contributions to following topics are invited: deadline 30 April 2005
  - 1) Market aspects of recovered wood: recycling versus energy generation, trade of recovered wood, prices of recovered wood at local, regional and European level
  - 2) Characteristics and standardisation of recovered wood: limits for Input material for particle boards, emissions of combustion for energy generation, toxicological aspects and pollutants
  - 3) Strategies for increasing the amount of recovered wood: logistics, infrastructure, socio economic factors, CO<sub>2</sub>-reduction strategies, operational measures for decision-making tools
  - 4) Design aspects for wooden products for sustainable end-of use: reuse, recycling, energy generation
